## **WOMEN IN DATA SCIENCE** MANNHEIM

WiDS regional Mannheim provides an opportunity to hear about the latest data science-related research in a number of domains, learn how leading-edge companies are using data science for success, and connect with potential mentors and collaborators in the field.

## **PROF. REBEKKA D. FRANK, PH.D** (she/her)

Einstein Center Digital Future Juniorprofessor for Information Management

Berlin School of Library and Information Science  
Humboldt-Universität zu Berlin

### **Bio**

Prof. Rebecca D. Frank, PhD is a Juniorprofessor at the Humboldt-Universität zu Berlin Institut für Bibliotheks- und Informationswissenschaft (IBI). She is also affiliated with the Einstein Center Digital Future (ECDF). Her research examines the social construction of risk in trustworthy digital repository audit and certification. She also conducts research in the areas of open data, digital preservation, digital curation, and data reuse, focusing on social and ethical barriers that limit or prevent the preservation, sharing, and reuse of digital information. She has a PhD from the University of Michigan School of Information, an MSI from the University of Michigan School of Information with a specialization in Preservation of Information, and a BA in Organizational Studies from the University of Michigan. Her work has been supported by the Einstein Centre Digital Future, the InfraLab Berlin, the National Science Foundation (United States), and the Australian Academy of Science.

## **DR. ANNE LAUSCHER** (she/her)

Postdoctoral Researcher MilaNLP, Bocconi University, Milan

### **Bio**

Dr. Anne Lauscher is a postdoctoral researcher in the Natural Language Processing group at Bocconi University in Milan, Italy, where she is working on introducing demographic factors into language processing systems with the aim of improving algorithmic performance and system fairness. She obtained her Ph.D., awarded with the highest honors, from the Data and Web Science group at the University of Mannheim, Germany, where her research focused on the interplay between language representations and computational argumentation. During her studies, she also interned at and became an independent research contractor for Grammarly Inc. and for the Allen Institute for Artificial Intelligence.

## **DR. COSIMA MEYER** (she/her)

AI and Data Science @ IBM, Germany

### **Bio**

Dr. Cosima Meyer is passionate about making the world a better place using data and empowering women. This is why she joined IBM after receiving her PhD in conflict studies at the University of Mannheim to create tomorrow's future. She is further an organizer and a facilitator of data science meetings as part of R-Ladies Cologne and the methods blog Methods Bites.

## **MAG DR. KATJA MAYER** (she/her)

University of Vienna, Science and Technology Studies

### **Bio**

Dr. Katja Mayer is a sociologist and Elise Richter fellow at the University of Vienna, Austria. Among other activities she runs the project "Politics of Openness - Open Data Practices in the Computational Social Sciences" at the department of Science and Technology Studies. Furthermore, her focus as senior scientist at the Center for Social Innovation (ZSI) is on research and innovation policy.
